# Interfund Multi Thematic

Sub-Fund of Interfund Sicav (ISIN LU2360594993)

Management Company: Fideuram Asset Management (Ireland) dac, Intesa Sanpaolo banking group

## OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund, expressed in EURO, aims at achieving long-term capital growth by investing primarily in equity transferable securities issued by entities without any geographical limitations, including emerging markets.

The Sub-Fund will not have any restrictions in selecting securities in terms of sectors.

The Sub-Fund will invest in equity transferable securities representative of investment themes with a strategy that seeks to align asset selection of sectors involved in social, economic or corporate topics prevalent in society (by way of example, technology and innovation, consumer and natural resources).

However, the Sub-Fund may also invest in equity transferable securities issued by issuers active in more traditional sectors, including but not limited in financial, real estate (through investments in closed-ended real estate investment trusts - "REITS") and infrastructure sectors.

The Sub-Fund may also actively manage equity transferable securities focused on investments styles.

The thematic allocation will be actively managed. Themes are selected by means of fundamental analysis (mostly valuation and earnings growth) and technical analysis in order to have a dynamic rotation among the different themes.

The thematic allocation may lead to a sector exposure eventually focused on few sectors and significantly different from the one of the benchmark.

The Sub-Fund may invest:

- up to 100% of its net assets in equities instruments, in depositary receipts (such as American depository receipts ("ADRs"), European depository receipts ("EDRs") and global depository receipts ("GDRs");
- up to 50% of its net asset value in equity transferable securities issued by entities located in emerging markets;

- up to 30% of its net assets in China A-Shares via the Shanghai-Hong Kong Stock Connect program;
- up to 15% of its net assets in investment grade fixed income instruments;

- up to 10% of its net assets in units/shares of UCITS and/or other UCIs, including ETFs, which provide exposure to the above-mentioned asset classes.

The Sub-Fund may invest without limitation in securities denominated in currencies other than the reference currency (EURO). The currency exposure of the sub-fund is flexibly managed.

The Sub-Fund may use financial derivative instruments not only for the purpose of risk hedging but also for investment purposes.

The Sub-Fund will enter into Total Return Swaps.

The benchmark of the sub-fund consists of the index "MSCI All Country World" Price Return, in USD, converted in EUR.

The Sub-Fund is actively managed and the degree of freedom allowed within the management of the sub-fund is significant. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. It is expected that, in normal circumstances, a significant part of the investments of the sub-fund will be components of the benchmark, however there is discretion to invest in other securities not included in the benchmark

This is a capitalization Sub-Fund.

You may redeem the shares held at any moment, by sending a request on any business day.
