Competent Authority: Fideuram Asset Management (Ireland) dac is authorised in Ireland and regulated by Central Bank of Ireland as a Management Company as defined in Article 2(1), point (b), of Directive 2009/65/EC. This PRIIP is a Luxembourg UCITS managed by Fideuram Asset Management (Ireland) dac under the freedom to provide services in Luxembourg in accordance with Article 16 of Directive 2009/65/EC.

This key information document is valid as at 2025-05-30.

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THE PRODUCT?

Type:

Mutual Investment Fund under Luxembourg Law governed by Part I of the Law of December 17, 2010.

Term:

This sub-fund is not subject to any fixed term. The Fund is established for an unlimited duration; it may be dissolved at any time with the mutual approval of the Management Company and the Depositary Bank. The Fund shall be liquidated in the cases provided for in Article 22 of the Law of December 17, 2010. The Management Company may decide to enter into liquidation the Sub-Fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the Sub-Fund is less than a minimum level for the Sub-Fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The Sub-Fund, expressed in EURO, aims to prudently generate a total return through a combination of both income and capital growth. The Sub-Fund invests in a wide range of fixed income securities (which are loans that pay a fixed or variable rate of interest) issued by companies or governments from around the world. Securities will be traded in United States of America without consideration for their maturity date. Securities will mainly be priced in US Dollars but the Sub-Fund may also hold other currencies as well as securities that are priced in other currencies. The investment advisor will choose securities with varying repayment dates based on its expectations for interest rate and exchange rate changes. The Sub-Fund may invest in emerging markets, which in investment terms are those economies that are still developing. The securities will mostly be "investment grade", as determined by international ratings agencies. Whilst potentially producing a lower level of income than "non-investment grade" securities, they are also considered to be of lower risk.

The Sub-Fund may use financial derivative instruments for the purpose of risk hedging and for investment purposes. For the attainment of its objective, the Sub-Fund's assets may be invested in mortgage backed securities (MBS), commercial mortgage backed securities (CMBS), asset backed securities (ABS) and securities equivalent in nature to such securities. The benchmark of the Sub-Fund measuring the strategy of the Sub-Fund foresees an investment in such securities at around 35% of the net assets. Investments in such securities carry the risk of default of the underlying collateral. The sub-fund may invest in contingent convertible bonds ("CoCos") up to 10% of its net assets.

The Sub-Fund is managed in reference to a benchmark, which consists of the index "Bloomberg Barclays US Aggregate Index" Total Return in USD Unhedged, converted in EUR".

The Sub-fund is actively managed and the degree of freedom allowed within the management of the sub-fund is significant. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. It is expected that, in normal circumstances, a significant part of the investments of the sub-fund will be components of the benchmark, however there is discretion to invest in other securities not included in the benchmark.

This is a capitalization Unit-Class which reinvests all income generated by the Sub-Fund.

You may request to redeem the units held at any moment, in accordance with the Prospectus.

Intended Retail Investor:

The Sub-fund is suitable for investors who look for medium term investments. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount. This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience. Investors should understand the product risks and only invest if they can bear potentially substantial losses.

Depositary of the Fund: STATE STREET BANK INTERNATIONAL GmbH, Luxembourg Branch. Copies in English of the latest annual and semi-annual reports, of the Prospectus, and of the Management Regulations may be obtained free of charge at any moment at the registered office of the Management Company, at the offices of STATE STREET BANK INTERNATIONAL GmbH, Luxembourg Branch, and of the Distributor. They are also available on the website www.fideuramireland.ie. The latest price of the unit is available every business day in Luxembourg at the offices of the Depositary and on the website www.fideuramireland.ie. The Remuneration policy is available on the website <http://www.fideuramireland.ie/en/policy/>. A paper copy of the summarized remuneration policy is available free of charge upon request. For information on Reg. 2019/2088 ("SFDR"), please refer to the "Sustainability" section on the website www.fideuramireland.ie. The Fund is subject to the Luxembourg tax legislation. Said legislation may have an impact on your personal tax position.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for a minimum of 4 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back. The redemption price may, depending on the evolution of the net asset value, be higher or lower than the paid issue price.

Specific reasons, such as change restrictions or circumstances outside the control of the Depositary Bank, may render impossible the transfer of redemption amount in the country where the redemption is requested.

In case of mass redemptions, the Management Company may decide to suspend the redemptions until it has sold the necessary assets.

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

Other risks materially relevant not included in the SRI: Counterparty Risk, Credit Risk, Derivatives Risk, Cocos risk, Emerging Market risk, Liquidity Risk, Regulatory risk,

This product does not include any protection from future market performance. Please refer to the 'Risk' section of the prospectus for more details.

Performance scenarios

Recommended minimum holding period: 4 years

Investment: 10 000 EUR

Scenarios

Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.

		1 year	4 years (recommended holding period)
Stress	What you might get back after costs	6 790 EUR	6 410 EUR
	Average return each year	- 32.1%	- 10.5%
Unfavourable	What you might get back after costs	8 410 EUR	8 590 EUR
	Average return each year	- 15.9%	- 3.7%
Moderate	What you might get back after costs	9 710 EUR	10 130 EUR
	Average return each year	- 2.9%	0.3%
Favourable	What you might get back after costs	11 080 EUR	11 570 EUR
	Average return each year	10.8%	3.7%

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment between 2015 - 2025.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF FIDEURAM ASSET MANAGEMENT (IRELAND) DAC IS UNABLE TO PAY OUT?

There is no compensation or guarantees for investors in the event of the insolvency of the Management company. It is specified that each mutual investment fund constitutes an autonomous and separate asset in all respects from the assets of the Management company and from that of each investor as well as from any other assets managed by the same Management company. Furthermore, the Management company is liable exclusively for the obligations contracted on behalf of the sub-fund with the assets of the same fund. On those assets actions by creditors of the Management company or creditors of the depositary or sub-depositary are not permitted. The creditors of individual investors are permitted to take action only on the units/shares held by the individual investors. The Management company may in no case use, in its own interest or in the interest of third parties, the assets belonging to the managed funds.

WHAT ARE THE COSTS?

The person selling or advising this product may charge other costs, in which case this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment: 10 000 EUR	If you exit after 1 year	If you exit after 4 years
Total Costs	734 EUR	1 860 EUR
Annual Cost Impact*	7.3%	4.3%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6% before costs and 0.3% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.81% of the amount you pay in when entering this investment (including fixed fees)	381 EUR
Exit costs	0.05% of your investment before it is paid out to you (including fixed fees)	5 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1.42% of the value of your investment per year. This amount is based on costs incurred for the custody, the administration and the management of the product.	165 EUR
Portfolio transaction costs	1.91% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	183 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 4 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the sub-fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. If the holding period is shorter than the recommended minimum, this may have a negative impact on the sub-fund's risk and reward profile. We recommend that you discuss this with your advisor. You may request to redeem the units held at any moment, and on any business day, in accordance with the Prospectus. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?

Any complaints must be sent by the investor to Fideuram Asset Management (Ireland) DAC in writing and according to one of the following methods indicated: registered letter with return receipt; e-mail to the address: info@fideuramireland.com. Complaints are considered validly received by the Management Company if they contain at least the following information: identification details of the person submitting the complaint; reasons for the complaint, details of the economic damage; sign-off or other element allowing for the identification of the investor. Complaints can also be sent by the investor to the authorized Distributors in the countries where the units of the sub-fund are distributed.
