WHAT IS THE PRODUCT?

Type:

Mutual Investment Fund under Luxembourg Law governed by Part I of the Law of December 17, 2010.

Term:

This sub-fund is not subject to any fixed term. The Fund is established for an unlimited duration; it may be dissolved at any time with the mutual approval of the Management Company and the Depositary Bank. The Fund shall be liquidated in the cases provided for in Article 22 of the Law of December 17, 2010. The Management Company may decide to enter into liquidation the Sub-Fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the Sub-Fund is less than a minimum level for the Sub-Fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The Sub-Fund, expressed in EURO, seeks to protect capital and generate attractive returns which exceed those available from similar duration Benchmark Government Bonds.

The Sub-Fund seeks to meet its objective through the construction of a prudently managed portfolio of corporate bonds with attractive risk and reward characteristics, as well as an average investment grade rating.

The Sub-Fund generally targets an average duration to worst of no more than 2 years; but, due to market conditions, the average duration to worst may at times be as high as 3 years.

The sub-fund primarily invests in corporate debt securities (including fixed and floating rate notes and bonds, contingent convertible securities) or in US and European treasury bonds, and US and European agency bonds, which are publicly traded on recognised exchanges.

The sub-fund may invest its net assets as follows:

- at least 60% in investment grade bonds (including ancillary liquid assets).
- up to 40% of the sub-fund's net assets may be rated below investment grade, and the minimum permissible rating of a security will be B3/B- by at least one rating agency (or as deemed equivalent by the Investment Manager);
- up to 5% in ABS and MBS;
- up to 10% in debt securities issued by Mainland China issuers through Bond Connect program.
- up to 5% of its net assets in broken convertible bonds (being a convertible bond where the underlying stock trades far below its conversion price, causing it to act as a bond)
- up to 5% in contingent convertible bonds.
- up to 10% in UCITS and other UCIs (including exchanged traded funds ("ETF"))
- up to 20% in cash and deposits at sight for ancillary liquidity

The sub-fund's investment portfolio will be diversified as to issuer and industry, with no single corporate issuer comprising more than 3% of the sub-fund net assets. The sub-fund has no geographic limitation.

The Sub-Fund may use financial derivative instruments for the sole purpose of risk hedging.

The sub-fund is actively managed. The sub-fund is not managed in reference to a benchmark.

The sub-fund has been categorized as an ESG Promotion Strategy Sub-fund in accordance with article 8 of the SFDR.

This is a capitalization Unit-Class which reinvests all income generated by the Sub-Fund.

You may request to redeem the units held at any moment, in accordance with the Prospectus.
