WHAT IS THE PRODUCT?

Type:
Umbrella investment company with variable capital (société d'investissement à capital variable) incorporated as a public limited company (société anonyme) in the Grand Duchy of Luxembourg, qualifying as an undertaking for collective investment in transferable securities (UCITS) under Part I of the Luxembourg Law dated December 17, 2010.

Term:
This sub-fund is not subject to any fixed term. The SICAV's liquidation shall be decided by the general meeting of shareholders, in accordance with the applicable law and the Articles of Incorporation. The Company may also enter into liquidation by judicial decision according to the Law of December 17, 2010. The Board of Directors may decide to liquidate the sub-fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the sub-fund is less than a minimum level for the sub-fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:
The Sub-fund, denominated in euro, aims to achieve a positive return relative to its benchmark, with potential for capital growth. It primarily invests in equity securities listed on regulated markets in the ASEAN region (e.g., Singapore, Indonesia, Thailand, Malaysia, and the Philippines), selecting issuers that meet Environmental, Social, and Governance (ESG) criteria. It may also use financial derivative instruments where appropriate. Eligible investments include common and preferred stocks, rights, warrants, and various depositary receipts (ADRs, EDRs, GDRs, NVDRs), as well as convertible bonds. The Sub-fund may invest without restriction in securities denominated in currencies other than the euro, with currency exposure managed flexibly. Up to 5% of net assets may be allocated to China A-Shares via the Shanghai and Shenzhen Stock Connect programs. The Sub-fund may also invest up to 20% of net assets in UCITS/UCI units or shares, including ETFs. Financial derivative instruments may include, but are not limited to: futures, exchange traded or over the counter options, forward contracts and unfunded Total Return Swaps (TRS). The Sub-fund's benchmark consists of the index MSCI AC ASEAN 10/40 Net Total Return Index in Eur, which is used for portfolio construction, risk monitoring, and performance evaluation. The Sub-fund is actively managed, and the degree of freedom allowed within the management of the Sub-fund is material. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. It is expected that, in normal circumstances, a material part of the investments of the Sub-fund will be components of the benchmark, however there is discretion to invest in other securities not included in the benchmark. The Sub-fund has been categorized as an ESG Promotion Strategy Sub-fund in accordance with article 8 of the SFDR. This is a capitalization Share-Class.
